I have been asked by the Editor-in-Chief of ERSJ to act as Guest Editor for this volume on the occasion of the **20th anniversary of the Journal**. It was a very honored invitation to work with distinguished colleagues on this occasion, therefore I accepted it with honor and great pleasure.

All articles were selected based on specific criteria set by the **Guest Editorial Board**, appointed for this issue of the European Research Studies Journal in accordance with the Code of Ethics and the Basic Requirements for Publication that have been adopted by the Journal since its circulation in 1998.

As the **Guest Editor** of this volume I am very thankful to the members of the Editorial Board consisting of **19 colleagues from 14 different countries**. I am also thankful to the **Guest Co-Editor Professor Tatiana Epifanova from Rostov State University of Economics** and the **Editor-in-Chief of ERSJ Professor El Thalassinos** for their effective cooperation in the preparation stage of this volume. For the **successful completion** the Guest Editorial Board has followed the double blind method in the evaluation process of each article according to their professional and academic experience.

I would like to take this opportunity to express my sincere thanks to **all the members of the Board** for their collaborative behavior, especially to the **Guest Editor Professor Ileana Tache** for her cooperation in the preparation of this issue. It is also my pleasure to cooperate with a new colleague from Russia the **Guest Co-Editor Professor Dr. Tatiana Epifanova** for her effective, productive and professional involvement, her valuable coordination regarding the collection of the articles, her generosity to reply to my e-mails every time I had a problem, question or comment with the evaluation process and the texts. **Their intervention was always valuable and very helpful.**

It was a great honor for me to cooperate with all the authors, to read all the articles getting a very good understanding of the content, the conclusions and the methodology used in each one of the articles where I had an interest. **Recommendations and conclusions** included in the published articles could be of great importance in case they were adopted by the corresponding bodies.

After 20 years of publication experience I would like to congratulate my cooperatives from several countries for their valuable comments and their help in the circulation of ERSJ.
